Connecting Tuhey Pool

Developer Documentation

Installing Application

Device Requirement: a device that runs iOS or Android
To download, search for Connecting Tuhey Pool on the App Store or Play Store.
As continuation of the application grows, there may be software maintenance where users will need to update the application for continued use.

Documentation

All of the code is based off of the APIs and documentation of the dependencies. For troubleshooting or uncertainty, please refer the links below.

Code

Administration

Navigation for administration navigation.

```html
<br /> <br /><br/>

    <ul class="adminnav">
      <li class="adminnav-sub"><a href="ChangeStatus.html">Change Status</a><br/></li>
      <li class="adminnav-sub"><a href="AddEvent.html">Add Event</a><br/></li>
      <li class="adminnav-sub"><a href="EditCalendar.html">Edit/Delete Event</a></li>
    </ul>

    <br /> <br /><br/>
</div>
```

Coupon

Links to the Tuhey Pool coupon page. To change the URL, replace the source (src).

```html
<div class="backgroundcontent">
    <body style="margin:0px;padding:0px;overflow:hidden">
        <iframe src="http://www.tuheypool.com/admission-2/" frameborder="0" style="overflow:hidden;position:absolute;" height="100%"></iframe>
    </body>
</div>
```
